THIS ADDENDUM to the numbered end-user license agreement ("EULA") referenced above (the "License") is deemed effective as of the date referenced above (the "Addendum Effective Date"), on condition that an authorized representative of the Licensee has completed the online check-out, including clicking agreement to the Addendum terms.

a) The last sentence in section 1(a) of the License is hereby deleted in connection with the uses of the Font Software permitted by this Addendum. This Addendum is effective only for the term of years named above from the Addendum Effective Date. Unless you obtain a new addendum covering a future time period, all use permitted hereunder must be discontinued by the term expiration date, subject to all of the provisions of the EULA.

b) Sections 1(b) and 1(c) of the License are hereby modified to additionally permit you to self host embedded webfont versions of the Font Software on Internet domains (including subdomains) that are collectively experienced by the visitor as one "website" ("domain" or "domains") so that the fonts are viewed in live-text format.

c) This license permits embedding in an unlimited number of domains so long as they are substantially dedicated to the licensed brand, and the brand is prominently displayed and identified on the domains (or, if there are multiple brands, they are all owned by you, and the Font Software is used only for the licensed brand).

d) Section 1(f) is modified to permit you to subset the Font Software files embedded in the licensed websites, on condition that you retain the Darden Studio name of the Font Software. Darden Studio is not responsible for any display or other technical problems which may occur as a result of your use of third-party software for this permitted modification. You are not permitted to otherwise modify the Font Software without Darden Studio's express permission. By way of illustration and not limitation, font file name obfuscation and the swapping of default characters are both expressly forbidden.

e) The Addendum fee is based upon the average monthly combined traffic (measured over a one-year period) on all websites, up to the maximum stated above, that use the Font Software. For each domain, the traffic count is for all pages, including subdirectories and subdomains, even if they do not contain the Font Software. The price will be based either on Average Monthly Page Views or, if the website is a single or multi-page application, on Average Monthly Unique Visitors. The price stated above represents the prepaid amount. For each year, if actual use exceeds the prepaid amount you will be charged the difference between the prepaid amount and the actual use price based on the tier-based pricing in effect at the time of purchase. (For a multi-year Addendum, you will be asked to report actual use at the close of each year and pay any difference between the prepaid and the actual use price, with no penalty.) The price of a new addendum will be based upon Darden Studio's pricing tables then in effect.
